Personal stock exchange earnings
monitor

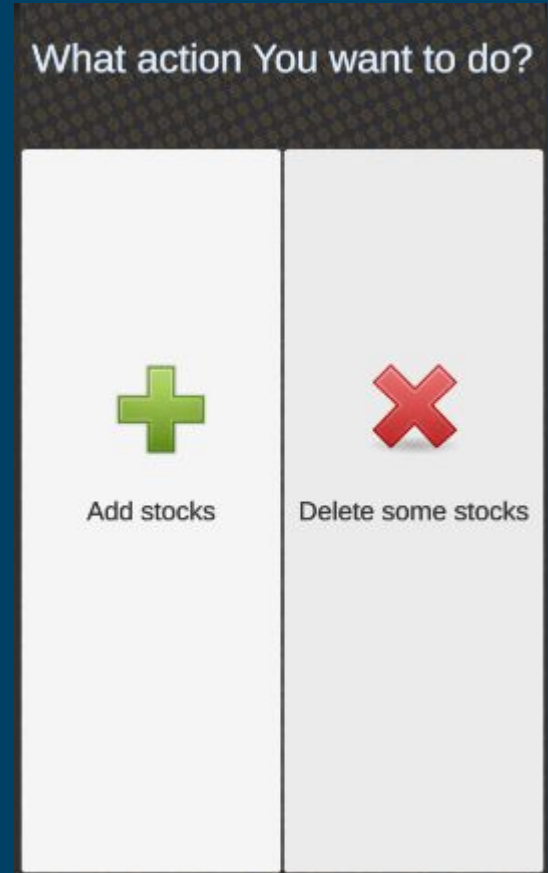

Main Menu

On the top, you can see your total earnings on assets. Below, there are navigation buttons for all application functionalities.

Adding new holding

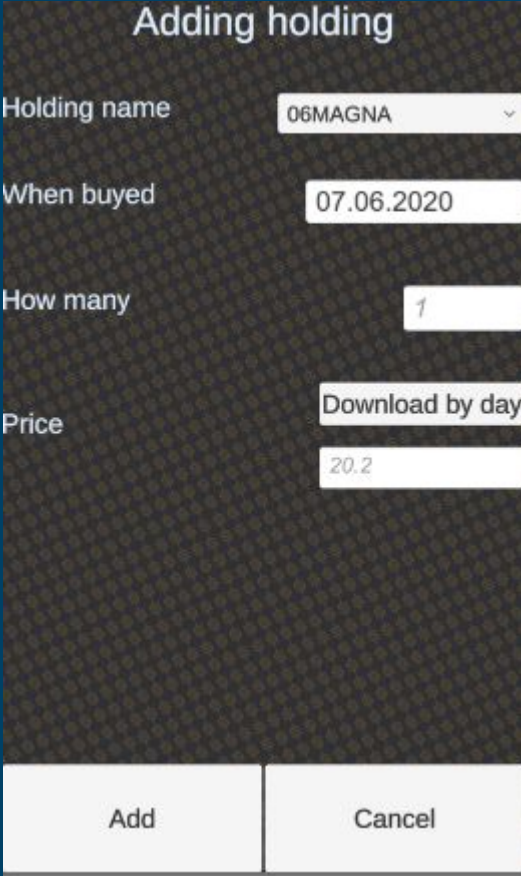

After clicking on plus sign in main menu, we occur decision window, in which we decide if we want to add stocks/holding or delete some stocks from holding

When we select add option

Application shows us dropdown
list with all Polish stock
exchange companies, input
fields for date, amount, and
price of purchase.

We can also download price for
inputted day by pressing
designated button

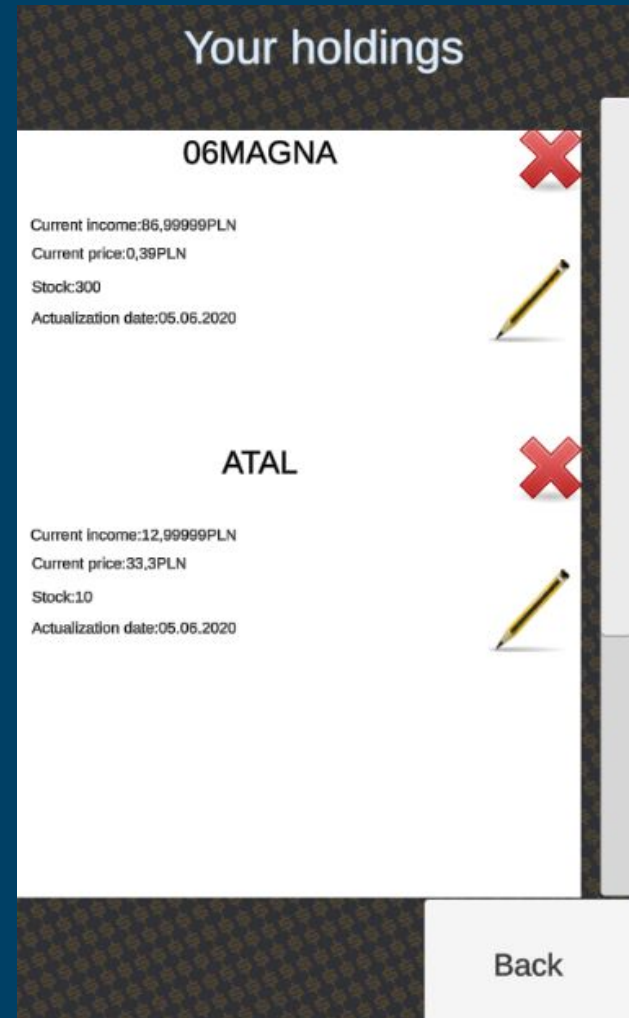

The screenshot shows a mobile application interface titled "Adding holding". It features four input fields: "Holding name" with a dropdown menu showing "06MAGNA", "When buyed" with a date input showing "07.06.2020", "How many" with a numeric input showing "1", and "Price" with a text input showing "20.2". Below the "Price" input is a button labeled "Download by day". At the bottom of the form are two buttons: "Add" and "Cancel".

Field	Value
Holding name	06MAGNA
When buyed	07.06.2020
How many	1
Price	20.2

Show current holdings

After adding a few holdings, we can finally go for showing all purchases in the list. From there we can delete whole holding or open edit window, which is similar to adding (for ease of use)

During restarting

We can force manual restart -
which means downloading
newest stock exchange data
from server, and apply it to all
holdings

Last but not least

We can show window with authors of that innovative application, with their Discord ID for contacting them.
